# SHE MAY NOT TELL IT ALL.

Speculation as to Mrs. Herman's Testimony Before Lexow Senators.

# GOFF HAS HER STATEMENT.

EXTRA SESSION HELD TO-DAY

### Acting Capt. Groe Declares Mrs. Urchittel Will Be Pretected from Persecution.

Whether Mrs. Matilda Hermann will tell the Lexow Committee all she knows about the blackmailing police, who disthe seven years that she controlled the brothel business in West Third street, was the question which was uppermost when the Senate investigation was resumed this morning.

ers yesterday in his efforts to induce her to disclose the names of some of the extortionists, but she was evidently holding back a great deal, and when closely pressed by the counsel for the Committee to give the names of particular men concerned in the conspiracy, she said declaively:

Mr. Goff suggests that as the witness have been the fact that yesterday was Friday that caused her to be less communicative than she might otherwise of the session that he hoped to get more out of her to-day.

As a matter of fact she has already told a very complete story of her experience with the police of the Mercer street station, giving the names of all the officials to whom she paid blackmail. and Mr. Goff has this information in his possession in the form of a written statement subscribed by her, the entire details of which he will bring out sooner or later, whether Mrs. Hermann will re-

Although to-day's session was an extraordinary one, it being the first time that the Committee has had a Saturday hearing, the Senators were very late in getting together, and it was 11 o'clock before any of them arrived.

Chairman Lexow was asked if the Committee would hold any sessions during the coming election week, and he replied:

Acting-Capt. Groo Will See that She

Is Not Persecuted.

Acting Capt. Groo, of the Mulberry street station, is indignant at the allegations of Rev. Dr. Parkhurst, that some of the officers of his command have been persecuting Mrs. Ceala Urchittel, the widow who appeared before the Lexow Committee. He said to-day that he would investigate the matter thoroughly, and if SMASHES WINDOWS FOR FUN. t was necessary would parade his entire command before the woman in order that she might identify the policemen.

she might identify the policemen.

Mrs. Urchittel opened a small candy stand in front of 558 Broadway after obtaining the consent of the owner. A policeman ordered her to move away, and she moved to 548 Broadway. That is a yacant store, and she had permission from the owners to place her stand there. A policeman, however, again ordered her away, and informed her that it was necessary for her to obtain the permission of "Silver Dollar" Smith. Her stand was broken into three times and the contents stolen.

first I knew of this was last "Acting Captain Groo said to-"We have a record of the stand broken open Oct. 12, and the 16th Urohities signed a receipt here for bottles that we had recovered.

That was the first time I knew it was the same woman.

"If any policeman in my command has been prosecuting her I want to know of it, and I will prefer charges against him. If the woman is not violating any ordinance, she has a right to have her stand there and I will protect her. She is not there to-day, probably on account of the rain, but as soon as she comes there I will see her personally and look into the matter.

"It makes no difference to me whether this woman was before the Lexow Committee or not. She is entitled to the police protection due every one, and I propose seeing that she gets It while in my precinct."

Mrs. Urchittel now lives in the basement of 177 Orchard street with her children, but was not at home when a reporter called to-day.

Some of the leading attorneys of the city will have charge of an investigation to be conducted after the fashion of the Lexow Committee, while sufficient funds to carry on the investigation of all the city departments is now at hand.

"There will be no delay on that score," said one of the Committee. "We will show where over \$1,000,000 of the tax-payers' money has gone into improper channels, and the result will be surprising. It will involve many officials supposed to be above reproach.

The investigation will be non-partisan, and will begin immediately after election. An effort will also be made to secure a new city charter and abolish the present system of local government.

He accosted the scribe in front of the grand stand and threatened him with bodily injury. In fact, it was only for the timely interference of Mr. Dwyer, one of the stewards, that Downing did not carry his threat into execution. Subsequently Downing's son went to the reporter in the timers' stand, and an officer had to be called to eject him. The matter was then supposed to be at an end. But last night the case took a different aspect. The reporter was murderously assaulted in front of the Narragansett Hotel by William Watson, owner of Harry Hinkson. The latter struck his victim with a heavy came. After the assault the story of how the senior Downing is alleged to have levied blackmail on another owner came out.

Sunday night a week ago a thief entered the home of Coroner Banning at Mount Vernon and stole a gold watch, a New York Central Railroad pass and a coat. The visitor left behind his own coat and the card of a Harlem real estate dealer named Phillips was found in the pocket.

ever. There is a big difference in bread. The bakers can easily afford to place plain bread, of superior quality, on the market so that it can be sold by the retailer at four cents a boat, but when it comes to Vienna, and one or two other fancy grades, I don't think there is a baker in the wholesale business who can put them on the market at the rate of three cents a loaf, the price we now get from the retailer. It is not the cost of flour that cuts so much of a figure in the baking of these brands, but they require more skill and much more time must be expended in handling them. The other ingredients, two are more casty.
